**For All Sites**

If you are registered to make your payment for this account by Electronic Funds Transfer (EFT), you must still file your return timely. You can mail your return in the envelope provided or fax it to 916-327-0859. To register to make payments via EFT, please contact us at 916-322-9534.

**GENERAL INFORMATION**

The Generator Fee is imposed on each site that generates (produces) hazardous waste of 5 tons or more in each calendar year. The fee is calculated for each site's generation of waste regardless of the waste's final disposition (i.e., recycling or disposal).

Each year a prepayment of the fee is due by August 31 and an annual return for the year must be filed by the last day of February following the end of the reporting period. An annual return must be filed even if you have no additional liability due. Failure to file either the prepayment or annual return may result in the imposition of penalty charges. Facility operators who pay an annual Facility Fee at a site are not subject to a Generator Fee for the same site.

## PREPAYMENT FILING REQUIREMENTS

You can determine the prepayment amount you owe by using either Option 1 or Option 2 below. Complete the applicable worksheet and enter the option chosen and amount due on the front of the form.

### PAYMENT BY ELECTRONIC FUNDS TRANSFER (EFT)

If you are registered to pay by EFT, please remember that:

- A payment is considered to be timely if it is both initiated on or before the due date and the funds transfer into the Board of Equalization's bank account on the banking day following the date the payment is initiated.
- Making your payment by EFT does not relieve you of the requirement to file your return by the due date. Note: The reporting due dates and filing requirements have not changed.

If you would like to file your return by fax, our fax number is 916-327-0859. If you are not registered to pay by EFT and would like to be, please contact us at 916-322-9534.

### Exemptions from the Fee

- 1) Used motor oil removed from motor vehicles that is recycled by a recycler permitted by the Department of Toxic Substances Control.
- 2) Wastes that are generated, recycled and reused onsite, and not transferred offsite at any time.
- 3) Aqueous waste treated onsite in a treatment unit operating, or which subsequently operates, under a permit by regulation, conditional authorization, or conditional exemption. However, hazardous waste generated by the treatment unit is subject to the Generator Fee.
